About Me

Two years experience fullstack developer with a BSc in Computer Science. Proficient in C# for backend development and TypeScript/React for frontend development. Strong understanding of object-oriented programming principles and experience with the MVC architectural pattern. An active member of the college developers club, with a passion for staying up to date on the latest technologies and best practices.

Work Experience

Fullstack Developer, Madanes (2021-Present)

- Collaborated closely with project managers to identify and prioritize project requirements, resulting in the successful deployment of several key software solutions.
- I did an Integration with third-party APIs to enhance system functionality and improve user experience. I leveraged job-based architectures, such as email sending, to build scalable and asynchronous backend solutions for optimal performance and reliability.
- I have implemented end-to-end features including an integration of popup windows, which dynamically retrieve and display custom information sourced from the database.

Education

B.S Computer Science, The Academic College of Tel Aviv, Yaffo (2019-2022)

- Courses include: Design Patterns || OOP in C++ || Data Structures || Algorithms || Riddle Based Learning || Advance C.
- Certificates: certificate of evaluation for outstanding performance on my final project , a desktop application built using C# & WPF.
- MTA Developers Club (2022-Present)
- MTA LevelUp dev club meets weekly throughout the year to work on a self and team projects, and to learn from top professionals in web development . We used hands on techniques like building a web app with React, Node.js, HTML and CSS to bridge the gap between academy and industry.

Courses

Build Responsive Real World Websites with HTML and CSS, by Jonas Schmedtmann

• DOM, CSS Inheritance, Selectors Conflicts, Box Model, Flex, Grid, Responsive Design

React The Complete Guide Academind by Maximilian Schwarzmüller (2022-2023)

• Styled Components, Hooks, Context API, Redux

Node.JS, Express, MongoDB & More by Jonas Schmedtmann (2023)

• Promises, Express, RESTful API, MongoDB

Relevant Skills

Programming Languages

Currently using: C#, Typescript, Javascript

Learned/College Projects: Java, C, C++, React, Nodejs

Related Knowledge & Scripts: HTML5, CSS3, JQuery, SQL , WPF

Other Industry Knowladge

Databases: SQLServer, Firebase, Redis , PostgreSQL, MongoDB

Computer Science: Design Patterns, OOP Paradigm, Data Structures, Algorithms

Version Control: Azure DevOps Server, Git & GitHub

Others: NET Framework , UML, Postman
